

The  
Celestial  
Phone  
System  
and the...

Gospel  
"Nets"  
of the  
Internet.

Use Your Phone for God's Throne.

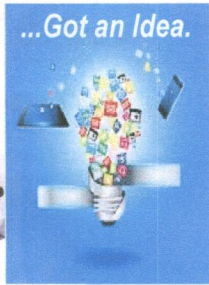

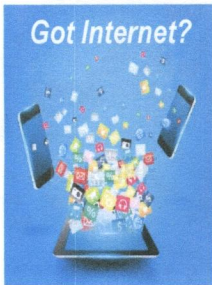

## Prayer is Like a Spiritual Phone

Some of our phones have a **wire** (land) **line** network. On this type of phone, we can have "a problem on the line" or "the line is dead". Most of our phones today are a **wireless** (cell) network. On this phone, we can have "no reception" or "no service in an area". God has a "**cell-less**" phone network: A "Cel-les-tial" phone system for Christians... **celestial**, from Earth to Heaven.

## Your Celestial Phone Network

Your heart is the celestial phone's battery and the Bible is its charger. Keep your heart charged in the Book! Failing to stay plugged into the Bible and church on SONday (the place for the best reception), will cause a low battery all week long.

**Sin is static. Sin causes "no reception" in reaching God. And sin can also keep your spiritual phone from ringing.**

## Let's Make God America's Conversation

The "Contact List" in your phone is your personal mission field and your personal intercessory prayer list. Your list of phone numbers is your evangelistic responsibility to text an invitation to church, to offer the Gospel, to ask them for their prayer requests, and to leave a Bible verse for their thinking and/or encouragement. Download a Bible app and you will always have the Scriptures with you for reading, for answering someone's question (1Peter 3:15), or for witnessing.

Put the main thing you got out of Bible study or church on Facebook weekly. Encourage your readers to share what they got out of church weekly. We need to put God back in America's conversation...turning the internet into a Gospel net-work.

How many other ways can your cell phone aid you in fulfilling your spiritual life and your work for Jesus Christ?

Ask others how they utilize their cell phones in personal ministry. Take pictures at church and put them on Facebook or Twitter. Talk about God, your church and the Bible on your phone. Refer to and quote Scripture as often as you can.

### Service? ...or No Service?

Both ends of God's celestial phone are "Holy". *Is the middle?*

ON THIS END	IN THE MIDDLE	ON THE OTHER END
<b>The HOLY Spirit</b> (in the believer)	<b>A HOLY Self?</b> (on Earth)	<b>The HOLY Son</b> (in Heaven)
Romans 8:26, 27	Isaiah 59:1, 2	Romans 8:34

Psalm 66:18; Heb. 7:25  
(Prov. 28:13; 1John 1:9)

## What Would Jesus Say?

Jesus told the men of His day, with fishing **nets** in their hands, that **He would make them fishers of men.**

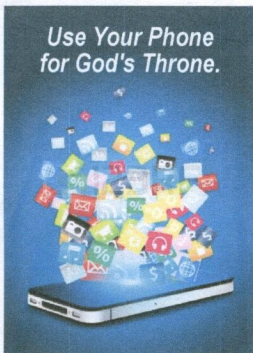

With the internet in our hands, what is Jesus saying to us today?

## What Would Satan Say?

Don't turn your cell phone off for God. Turn it on!  
Keep it charged for God. Put it in use for the Lord.

Enter the internet with "Conversation" for God...about God.

God's Phone Number is Jeremiah 33:3,  
*"Call unto Me and I will answer" (KJV)*
